

Gemini Sensa™

Type of product

Video slot machine

Overview

After the success of classic hi-end dual monitor GEMINI line Casino Technology offers new development of the product, featuring range of innovative improvements, which ensure better visual presentation, accessibility and multi-functional user-friendly environment, consistent with natural ergonomics.

The new development keeps the essential 'musts' of GEMINI series, including easy serviceability and maintenance, along with player comfort and ergonomics, but GEMINI SENSEA also makes a huge jump ahead in player entertainment and enhanced user features.

The most important new feature is the innovative keyboard technology, introduced for the first time in the gaming industry. The 'Crystal touch' sensor buttons reduce the number of the classic push buttons changing the keyboard layout in order to ensure instant player control and user-friendly intuitive play.

A 3rd auxiliary 15" monitor, which is positioned right in the middle of the keyboard layout provides a real-time entertainment broadcast allowing the player to enjoy the game and to receive enhanced sensations during the play. Nevermind if he uses the auto play function or not the player

is always able to watch a TV-program, or enjoy multimedia presentation or follow the jackpot levels or the sports results on the small monitor, positioned right in front of him.

Additional ergonomic improvements like panorama LCD displays provide better viewing area for greater visual impact; an improved stereo sound system focuses the sound towards the player, limiting the accidental noise interference to adjacent automats.

Elegant and stylish, the new cabinet keeps the feel of the classic GEMINI but improved with more exquisite lines, beautiful appearance, and light construction. Although fitted with more devices and improvements, thanks to the smart engineering solutions GEMINI SENSEA takes less space on the casino floor, standing out among the other slots and bringing magnificent, luxurious appearance of any type of casino premises.
